K.B.S Nataraj Professional Sciences College

Bachelor of Computer Application(8.30 CGPA)

Vapi, Gujarat

June. 2022 – May 2025

Sardar Vallabhbhai Patel High School

Higher Secondary Education(62.81)

Vapi, Gujarat

June. 2020 – May 2022

EXPERIENCE

Full Stack Web Developer

Sept 2025 – Present

Enlightened I.T Solutions

- Conducted end-to-end R&D for a fleet tracking GPS software, designing High-Level Design (HLD) and Low-Level Design (LLD) to build a scalable tracking system
- Deployed and managed a containerized VPS environment using Docker networks, hosting frontend, backend, GPS decoders, and database services, reducing deployment time by 40% and maintaining upto 99.9% uptime
- Improved the company's CRM by adding follow-up tracking, service management, search/sort, and form validation, increasing operational speed by 25% and UX by 40%
- Developed the backend for a jewellery inventory management system with RFID integration, powering both web and mobile applications and enabling efficient inventory management

Web Developer (Intern)

May 2024 – June 2024

Symbiosis System Pvt Ltd

Vapi, Gujarat

- Built the Inward and Order modules in an inventory system, helping the company deliver a faster solution to their client, improving UX by 40% and overall speed by 20%
- Developed a subscription countdown system (10 days → 0) to automatically track expiries, increasing revenue and saving hours of manual follow-ups
- Developed a system for the company to restrict access after subscription expiry, reducing manual checks and ensuring users renew before using the software

PROJECTS

Eventify | *React, Mongoose, Mongodb, Cloudinary, Git*

Jan 2025 – Apr 2025

- * Built an event ticket management system enabling seamless ticket booking, management, and user interaction
- * Implemented Multi-User authentication system using JWT authentication
- * Enabled secure payments by integrating Razorpay for paid events registrations and refunds

Imaginify | *Next.js, Mongoose, Mongodb, Cloudinary, Git*

July 2024 – Sept 2024

- * Developed an AI image editor using Cloudinary API to restore images, remove/recolor objects
- * Integrated Stripe for a credit-based payment system with tiered plans, enabling smooth transactions
- * Implemented Clerk for seamless user authentication with options like Google sign-in.

Movix | *React, Tailwindcss, Git, TMDB API*

July 2024 – Sept 2024

- * Built a movie web app using React and TMDB API to show detailed movie info
- * Simulated real-time search, trending movies, and genre-based filtering features
- * Designed explore page with sorting like top-rated and most popular
